PROFESSIONAL SUMMARY

UI/UX designer with 3 years building enterprise AI platforms. Sole designer across 15+ complex applications - from Figma prototype to production-ready Angular/React implementation. Recipient of both the GEM Award (2026) and ACE Award (2024);

AWARDS & RECOGNITION

GEM Award | Gapblue Software Labs Pvt. Ltd.

January 2026

Awarded by the VP of AI Engineering for outstanding design contributions. Citation noted that across Aldar projects, clients specifically requested that designs be replicated across other initiatives — a testament to their quality and impact.

ACE Award | Gapblue Software Labs Pvt. Ltd.

May 2024

Recognized for pivotal contributions to the Gapblue corporate website revamp. Cited for passion, unwavering commitment to top-notch results, and a creative approach that consistently elevates every project.

CORE SKILLS

UI/UX Design	Figma - prototyping, auto-layout, component libraries, design systems; Adobe Photoshop
Frontend Dev	Angular, HTML5, CSS3, TypeScript, JavaScript - responsive & accessible production UI
Visual Design	Corporate presentations, branding collateral, event marketing materials
Motion / Video	DaVinci Resolve - event highlight reels & promotional videos (GITEX, LEAP)
Other Tools	Figma, Git, AI-assisted design workflows, Premiere Pro, PowerPoint, Word, Excel
Languages	English (Professional), Malayalam (Native), Hindi (Conversational)

PROFESSIONAL EXPERIENCE

UI/UX Designer & Frontend Developer | Gapblue Software Labs Pvt. Ltd.

July 2023 – Present

- Sole UI/UX designer across 10+ enterprise AI applications for Aldar Properties - delivering end-to-end design from wireframes and Figma prototypes to Angular implementation.
- Built and maintained a unified design system and component library in Figma, ensuring visual consistency across the full product suite.
- Collaborated directly with product managers, frontend developers, backend engineers, and AI/ML teams to translate complex requirements into clear, intuitive interfaces.
- Produced executive-level PowerPoint decks for client meetings, proposals, and briefings.
- Created high quality promotional videos in DaVinci Resolve for GITEX and LEAP technology conferences.
- Led the UI revamp and ongoing updates for Gapblue's corporate website.

Key Projects

Estimation Infrastructure AI

Sole designer for a construction cost estimation platform. Designed multi-level BOQ drill-down interfaces, dynamic cost journey graphs for version tracking, and sensitivity analysis screens showing real-time cost impact - enabling infrastructure project teams to evaluate complex estimates at a glance.

Supplier Onboarding AI & Know Your Supplier (KYS)

Designed end-to-end UX for an AI-powered supplier registration, approval, and compliance governance platform. Delivered conversational chatbot UI flows, multi-step form design, document management interfaces, real-time compliance dashboards, and Oracle Fusion ERP integration touchpoints.

AI Technical Evaluation Agent

Designed a procurement technical evaluation platform integrated with Oracle Fusion. Created multi-format document upload interfaces, automated scoring dashboards, explainable AI evidence review panels, and supplier comparison views - making complex AI outputs accessible and auditable for procurement teams.

Procurement Dashboard & Benchmark AI

Designed a real-time procurement intelligence dashboard with Oracle Fusion ERP integration, including interactive KPI views, drill-down analytics, AI-powered conversational querying, and a cost benchmarking platform with historical rate comparisons and vendor cost analysis.

EasyBuy AI& Direct Procurement AI

Designed conversational procurement assistant interfaces, guided purchasing workflows, and a dual-mode AI-assisted internal onboarding tool - covering purchase request flows, AI recommendation displays, approval UIs, and real-time validation feedback.

Additional Platforms

Stakeholder AI (relationship visualization & governance reporting), Adhoc Payment AI (payment request management & approval tracking), HCM Dashboard (executive workforce analytics), POMI Governance Platform (compliance monitoring & project oversight), Contingent Worker Onboarding (vendor employee onboarding flows).

Enterprise AI Chat Interface

Designed a fully branded, ChatGPT-style conversational AI interface purpose-built for TDK's enterprise environment - delivering UX research-informed interaction design, a brand-aligned visual design system, and high-fidelity Figma prototypes optimized for corporate power users.

EDUCATION

B.Tech – Electronics & Communication Engineering

2019 – 2023

Christ College of Engineering, Irinjalakuda | CGPA: 7.54 / 10

- Developed interest in design and visual communication as Chief Editor & Designer of the Department Magazine and Media Head of Department - the foundation of a deliberate career shift into UI/UX.
- Active member: IEDC Executive Committee, ECTA Executive Committee, College Media Team.

CERTIFICATIONS & ACHIEVEMENTS

- Deep Learning with Python — C-DAC Thiruvananthapuram (May–June 2022)
- 3rd Place – Amaze'22 24-Hour Hackathon, IEEE CS SBC GCEK & Mulearn (Nov 2022)
